### Investment objective

The Fund seeks capital preservation and longterm appreciation by investing in a portfolio of global companies. Investments may entail, among others, market risk due to volatility of equities, exchange rates, investment in emerging countries, as well as geographic and sector concentration.

### Investment manager

Cobas AM was founded in 2017 by Francisco García Paramés, a highly reputed portfolio manager with over 25 years of extraordinary track record. Mr. García Paramés leads a portfolio management team of six analysts fully dedicated to a single investment style: Value Investing.

### Investment Strategy

The investment team's objective is to construct a longonly concentrated portfolio, with the possibility to expose up to a 20% in a single asset, that offers attractive riskreturn investment opportunities. It will be possible to trade with financial derivatives, with hedging purposes.

The investment philosophy is based on the principles of value investing: the purchase of good businesses, with sustainable competitive advantages, managed by good professionals and that are priced well below their intrinsic value, thus offering significant longterm upside. This methodology has been successfully executed by the investment team of Cobas Asset Management formore than 25 years. The manager relies on its fundamental bottomup research and investment experience to identify companies that priced below their intrinsic value. The Fund's portfolio or performance does not track any market benchmark.
