- (3) Best scenario: It is the difference between the target value and the aggregate market price of the portfolio. To calculate the target value, we apply a multiple to the normalized cash flow based on our estimate of each company.
- (4) Worst scenario: Calculated with the VALUE AT RISK Methodology (VaR) 2.32 sigmas, 99% confidence level of the normal distribution at 1 month.
- (5) It is calculated by dividing the market capitalization of each company by its normalized cash flow based on our estimates.
- (6) It is the result of dividing the normalized cash flow based on our estimates, by the Enterprise Value.
- (7) We calculate it by dividing the normalized operating result based on our own estimates, after taxes, by the capital employed (ex goodwill) in order to get the business profitability.

Investment objective

The Fund seeks capital preservation and longterm appreciation by investing in a portfolio with a minimun equity exposure of 80% to OCDE's issuers/markets. Investments may entail, among others, market risk due to volatility of equities, exchange rates, investment in emerging countries, as well as geographic and sector concentration.

Investment manager

Cobas AM was founded in 2017 by Francisco García Paramés, a highly reputed portfolio manager with over 25 years of extraordinary track record. Mr. García Paramés leads a portfolio management team of six analysts fully dedicated to a single investment style: Value Investing.

Investment Strategy

The investment team's objective is to construct a longonly diversified portfolio of multi-cap companies that offers attractive risk-return investment opportunities. It will be possible to trade with financial derivatives, with hedging purposes.

The investment philosophy is based on the principles of value investing: the purchase of good businesses, with sustainable competitive advantages, managed by good professionals and that are priced well below their intrinsic value, thus offering significant longterm upside. The manager relies on his fundamental bottomup research and investment experience to identify companies that priced below their intrinsic value. The Fund's portfolio or performance does not track any market benchmark.
