What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of COBAS LUX SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

The Sub-Fund seeks to provide principal preservation and long term capital appreciation by offering an exposure to Global Equities. There is however no guarantee that the Sub-Fund will achieve its investment objective.

The Sub-Fund is actively managed. The benchmark index MSCI Europe Total Net Return is used for comparison purposes only. The Sub-Fund can deviate significantly from the benchmark index.

The Sub-Fund normally invests in stocks of companies with, in the investment manager's opinion, a sustainable competitive advantage. Consistent with preserving principal, the investment manager intends to select investments that, in its opinion, have low downside risk and high upside potential. The Investment Manager intends to purchase securities that trade at a discount to their calculated intrinsic value, thus providing a margin of safety to the investment.

The Sub-Fund will mainly invest in worldwide equities and equity related securities (such as ADR (American Depositary Receipt), GDR (Global Depositary Receipt), preferred stocks) of companies of any market capitalization.

The choice of investments will neither be limited by geographical area (including emerging markets), nor by economic sector, nor in terms of market capitalization, nor currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries, as OECD countries) and/or in a single currency and/or in a single economic sector.

On an ancillary basis, the Sub-Fund can invest in any other eligible assets, other than those above-mentioned, debt securities, money market instruments, cash and cash equivalents, UCIs.

However, the Compartment may invest directly in the assets listed below, subject to the following limits:

- the Sub-Fund's investments in units or shares of UCIs (UCITS and/or UCIs other than UCITS) shall not exceed 10% of the net assets of the Sub-Fund;
- Investments in debt securities of any type (including money market instruments), rated investment grade (see details in prospectus) issued by corporate and/or public issuers are limited to 49% of the net assets of the Sub-Fund.

For hedging and for any other purposes, the Sub-Fund may use financial derivative instruments within the limits and descriptions set out in the prospectus. The use of derivative instrument may increase leverage and imply additional costs and risks.

If the investment manager considers this to be in the best interest of the shareholders, the Sub-Fund may also, on a temporary basis and for defensive purposes, hold, up to 100% of its net assets in liquidities such as, cash deposits, money market funds and money market instruments.

This Class is cumulative. Dividend distributions are not planned.

INTENDED RETAIL INVESTORS

The product is reserved for professional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

The Depositary is Pictet & Cie (Europe) S.A..

The net asset value per share is available on www.fundsquare.net, at the registered office of the Fund and from the Management Company.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 619	EUR 1,082
Annual cost impact (*)	6.2%	2.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -4.8% before costs and -7.6% after costs.
